

# Area III Chair Candidate – Kathy Graber

Coaching, serving my league, and contributing to forensics statewide has been my passion for 25 years. As TCFL's co-president since 2003, I've read and approved 1000s of scripts.

I am a student of our state constitution, and have contributed multiple times to our bylaws. I'm proud of the fact that I wrote the bylaw enabling us to use online sources for interps, when previously we were limited to conventional publications. I attend CHSSA meetings faithfully and served on IE committee for 14 years. In 2016, I felt honored to be CHSSA's Hall of Fame inductee.

One of the first things I did as Area Chair was to establish a website where coaches can check on their current CHSSA status. Other parts of the site are devoted to script tutorial, legislative changes, allocations, rules clarifications, and best practices. Please visit! <http://area3.chssa.org>

In my new role as Area Chair, I've communicated regularly with both SCDL's and WBFL's presidents, and we inaugurated an Area group script read that went beautifully.

My mission is and has always been to improve the quality, equity, and transparency of California forensics. It's been my primary focus for a quarter century.
